To whom it may concern,

LETTER OF RECOMMENDATION FOR MR. EMIR VISHNU RAMALINGAM

It is my great pleasure to write this letter of recommendation for Mr. Emir Vishnu Ramalingam (Student ID number: MC1510PC0264). I have had the pleasure of supervising Mr. Emir Vishnu for the time being, and I can state with confidence that he is a motivated and responsible person with a high degree of integrity.

Mr Emir Vishnu has developed a portal called EasyCorpus. The EasyCorpus portal (www.easycorpus.com) is an innovative and creative portal that has huge potential for English language teaching and learning, given the adoption of technology and mobile learning in education. The learning content is aligned to current academic research and findings, and the technological facets certainly facilitate engagement not only in the language aspects but also address critical thinking elements of learning a language. This is where EasyCorpus differentiates itself.

Indeed, many prominent researchers in the vocabulary teaching and learning fraternity attest to the fact that the corpus-driven method of teaching and learning English is the way forward. The positive feedback received from the users and focus groups within the academic and corporate context is a testament to its utility in playing a pivotal role in transforming teaching and learning pedagogy.

Given that EasyCorpus.com is a Malaysian product with global potential, I am excited in supervising the Founder, Mr Emir Vishnu, in pursuing his PhD in Education at UNITAR International University. EasyCorpus is at the forefront of instructional technology and I recommend its adoption as a teaching and learning tool for schools, universities and the corporate sector locally and abroad.

Thank you.

Sincerely,
